## Elena Canales Lachén

Elena Canales Lachén is a radiologist focus on Abdominal Imaging at the Radiologist Department of Ramón y Cajal University Hospital in Madrid (Spain).

Dra. Canales performed her residency at La Paz University Hospital (Madrid, Spain). She had been working with the main diagnostic techniques, especially related with MR images, and she had participated on different National and International Conferences and Courses. After joining the Ramón y Cajal University Hospital (Madrid, Spain) in November 2017, she is one of the members of the Abdominal Imaging Section where she carries out clinical, research and teaching activities. She collaborates in different multidisciplinary hospital committees (peritoneal carcinomatosis, colorectal cancer and inflammatory bowel disease) and she participates in multiple clinical trials with the Oncology Department of the Ramón y Cajal-IRYCIS University Hospital, and in some Research Projects with IRYCIS and the Carlos III Institute.

Since 2020, Dra. Canales belongs to the residency and training program of her department. These assistance and research activities are combined with continuous and pleasant teaching work with residents in daily clinical practice and through the organization of different courses, activities and sessions.
